

As a listener to K-LOVE (on 94.7 & 94.9 in my area), I am very concerned that the new LPFM service that you are considering allowing will take priority over K-LOVE stations. My local community benefits from K-LOVE being on the air because of their family friendly programming. If they were displaced by another station, the void that would be left would be great. The service that K-LOVE provides is in the public interest because of the positive and uplifting message that it constantly gives. One can take comfort in knowing that when tuning into K-LOVE, a listener will not be subjected to crude jokes and songs with violent or sexual innuendos. Please take my comment under advisement to keep K-LOVE on the air. Thank you, Candace L. Criswell
